

LIVE 2 GRADUATE

Town Hall Meeting on Underage Drinking

“Underage alcohol consumption in the United States is a widespread and persistent public health and safety problem that creates serious personal, social, and economic consequences for adolescents, their families, communities, and the Nation as a whole.”

The Surgeon General’s Call to Action to Prevent and Reduce Underage Drinking

The purpose of Town Hall Meetings is to increase the understanding of underage drinking and its consequences, and to encourage students, parents and communities to address the problem.

- ❖ Alcohol is America’s #1 drug choice and it continues to kill more young people than all other illicit drugs combined.
- ❖ More than 5,000 youth die each year from underage drinking related causes, including traffic fatalities, homicides, suicides, and other unintentional injuries.
